WIEGAND® FlexLine Trolley System

Trolleys for all your needs – developed for use in hospitals, clinics, medical practices, elderly- and nursing homes.

50 YEARS

WIEGAND®

Innovative nursing trolley – robust, durable and functional

Your expert for medication and logistics solutions

For 50 years, Wiegand has been developing impressive solutions for consumable supplies and medication logistics. We have extensive discussions with nursing staff and therefore are familiar with the common procedures – which may vary depending on the institution or department. Our trolley system is therefore not limited to standard products. On the contrary, you can choose from a wide range of accessories, compatible add-ons and drawer units.

Invest in a FlexLine nursing trolley and benefit in the long term from the high quality and high adaptability of the FlexLine trolley system. Our nursing trolleys can be converted or reconfigured at any time and can thus continue to be used in the event of changing needs without high investments.

Swiss Made

The FlexLine nursing trolleys are manufactured in our own production facility in Bülach. As an independent manufacturer, we are able to produce customised nursing trolleys starting at just one unit. Each FlexLine nursing trolley is precisely handcrafted for you using high-quality, durable materials. Wiegand is a family business that is and will remain firmly established at our production facility in Switzerland.

Basic configuration

From the TopModule to swivel castors, you can configure your WIEGAND® FlexLine nursing trolley according to your needs. The FlexLine trolley system is available in six different trolley heights and various trolley widths. All trolley components can be adapted

Configure the ideal nursing trolley for your work processes

to best suit your work processes and the needs of health care professionals. With a FlexLine nursing trolley, you will no longer have to make compromises and you will be investing in a sustainable solution.

TopModules are available in ABS, Inox or solid synthetic resin panels (VKH)

Practical steering handle for all trolley types, also available without on request
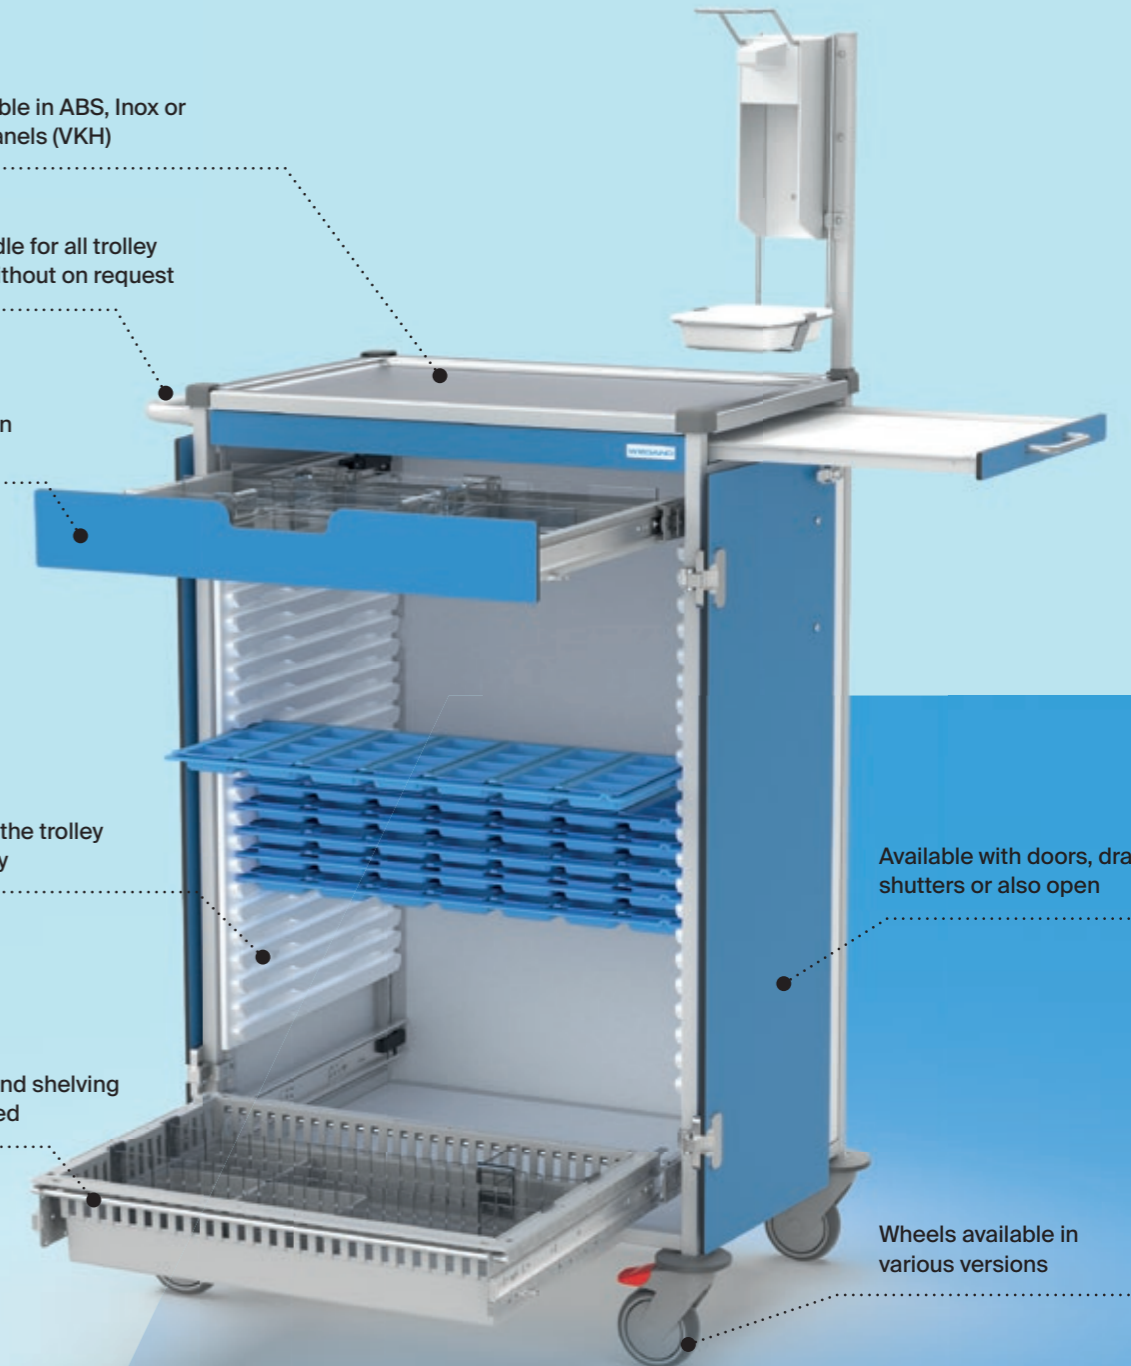

Drawers are available in various heights

Shelfing profiles allow the trolley to be organised flexibly

Available with doors, drawers, shutters or also open

Full-extension frame and shelving profile can be combined

Wheels available in various versions

5-year warranty on WIEGAND® FlexLine nursing trolleys

The WIEGAND® FlexLine nursing trolleys are entirely maintenance-free, so that you won't face any hidden costs in the future. We grant a 5-year warranty from the date of delivery on WIEGAND® FlexLine trolley systems that are manufactured in Switzerland. We extend a 24-month warranty on accessory parts and trolley components from the date of delivery.

Configuring nursing trolleys

To support the work processes of health care professionals, an easy access to material is crucial. Choose whether you work with drawers, doors, shutters or with an open trolley. The FlexLine trolley system offers you various options to choose from.

The exterior of the FlexLine nursing trolleys are made of high-quality, full synthetic resin panels. The material is extremely robust, durable and easy to clean.

Drawers

The width of the drawer is determined by the trolley type. The sheet metal body of the drawer is available in heights of 5, 10 and 20 cm and can be combined with front panels from 6 cm high upwards.

We offer you various ways of organising the drawers. Whether you want to work with small containers, TRESTON containers or subdivisions – you will find practical partition sets for drawers in our range. There is more information on this starting on page 33.

Doors

The doors of the FlexLine nursing trollleys are made of full synthetic resin sheets and can be fitted with various locking systems. Single or double doors can be fitted to the trolley. It is also possible to fit the trolley with doors at the front and rear so that material can be accessed from both sides. The doors are fitted with rounded, coated steel handles that can be easily disinfected.

Combination of doors and drawers

The FlexLine trolley system enables you to combine doors with drawers. The nursing trolley can thus be ideally adapted to the needs and work processes on your ward. Drawers can also be fitted behind doors, offering even more flexibility in organising your materials. The drawers have a self-closing mechanism that prevents unintentional opening while moving.

Shutter

Our trolleys are also available with practical shutters. The shutters are maintenance-free and can be fitted with various locking systems. The shutters are equipped with the innovative 'push to open' function. This makes it possible to fully open the trolley within a few seconds.

TopModules of your choice

The work surface of the nursing trolley is used differently depending on the area of application. Choose the ideal surface for you from the various options. The TopModul is available in ABS, stainless steel or full synthetic resin sheets.
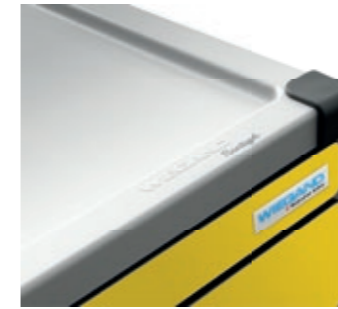

TopModul made of ABS plastic with recess
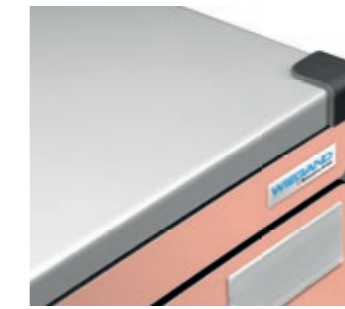

TopModul made of ABS plastic without recess

TopModul in inox available with or without recess

Sanitized® – protects surfaces against microbes

All WIEGAND® trolley frames and ABS TopModules are equipped with Sanitized® silver technology. This technology provides durable protection against a wide range of bacteria and, in certain cases, against fungi.

The growth of bacteria and microbes is persistently inhibited and your FlexLine trolley surface can be easily cleaned. For more information on the cleaning and care of your WIEGAND® FlexLine nursing trolley, please visit our website www.wiegand.ch

Wheels for any requirement

Wiegand offers you various wheels with a 100 mm diameter and red total stoppers are fitted as standard. Depending on the size of the trolley or individual requirements, we also offer swivel castors with 75 and 125 mm diameters, swivel castors with directional locks or electrically conductive swivel castors.

Wheel with red lock

Wheel with grey direction lock

Electrically conductive wheel marked with yellow dot

Locking systems for compliance with security standards

To safeguard your materials we offer various locking systems. Locking systems are usually chosen on the basis of a company-wide locking plan. We will be happy to help you choose a suitable system.

Preparation for digital half cylinder Euro profile, 30 mm

- Preparation for on-site cylinder mounting in drawer side panel (central locking), drawer front or door

Accessories	64.808	Protection digital cylinder

Euro-Locks

- Digital combination lock

Weekly system trolley

For the storage and distribution of weekly systems

The medication distribution system by Wiegand can be integrated into the weekly system trolley in a space-saving and efficient way. The weekly system trolleys are tailored to the medication distribution system used and the number of residents or patients. The trolleys can be individually equipped with accessories so that the nursing staff can carry all the necessary medical aids.

Shelving profile, grooves every 30mm

B24.01.001
60.3-2F

Weekly system trolley

- With shelving profile for optimum use of space
- Offers space for weekly trays, FlexModul and more
- Can be individually equipped with accessories, e.g. waste bag holder

FlexModul

Weekly system trolley

- With shelving profile for optimum use of space
- Offers space for weekly trays, FlexModul and more
- Can be individually equipped with accessories, e.g. dispenser for disinfectant or dispenser for MediCups
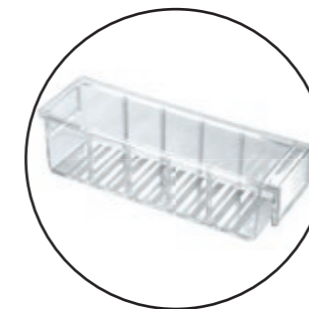

B24.01.002
60.3-3F

Narcotics drawer

Weekly system trolley

- Equipped with separately lockable narcotics drawer behind the door
- Ideal for storing WIEGAND® weekly systems
- Individual use of space
- Laterally extendable work surface

B24.01.003
60.3A-3F

TRESTON Container

Weekly system trolley with TRESTON Containers

- TRESTON containers for the storage of medicines, available in various sizes
- WIEGAND® weekly tray can be used individually
- Combination of shelving profile and full-extension frame with FlexModul
- Laterally extendable work surface

60.3A-3F

Tablet holder

Weekly system trolley

- With system insert for weekly tray 291 for MediDispenser 01/09
- Combination of shelving profile and full-extension frame with FlexModul
- Laterally extendable work surface
- Can be individually equipped with accessories, e.g. tablet holder

Material accessible from both sides

Weekly system trolley with two double doors

- Thanks to two double doors you have access to the material from the back and front
- Equipped with shelving profile
- Laterally extendable work surface

Wiegand FlexLine Trolley System

Medication trolley

Your practical companion when dispensing medication

In order to reduce walking distances for nursing staff, medication trolleys are used during the dispensing process. The medication trolleys provide enough space to safely store the directed medicines and to transport additional, reserve or emergency medication and material. Thanks to the FlexLine trolley system, the medication trolleys can be individually equipped with accessories.

Combination of door and drawer

Side-mounted drawer
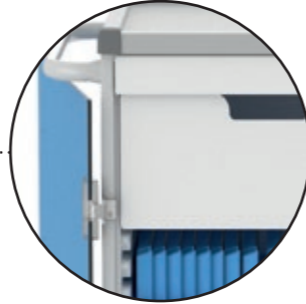

Medication trolley

- Additional drawer behind the lockable door
- With shelving profile for individual use of space
- Laterally extendable work surface
- Can be individually equipped with accessories, e.g. waste bag holder or dispenser for MediCups

B24.02.001
45.3A-3F

Medication trolley with side-mounted drawer

- Side-mounted drawer for material
- Combination of shelving profile and FlexModul for optimal space use
- Laterally extendable work surface
- Can be individually equipped with accessories, e.g. Inox waste bag holder

B24.02.003
45.3A-3F

Height-adjustable lift table

Tray for individual use
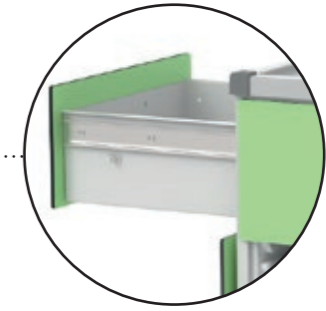

Medication trolley with lift table

- With swivelling lift table as a height-adjustable work surface or shelf for a laptop, for example
- With shelving profile for individual use of space
- Laterally extendable work surface
- Can be individually equipped with accessories, e.g. waste bag holder

FlexLine Range of accessories

Holder for disinfectant dispenser

- Holder suitable for Euronorm Bode/ Hartmann disinfectant dispenser 500ml
- Dimensions: 67x67mm
- Made of stainless steel

Art. No.	64.722	Holder for disinfectant dispenser
	64.722.AS	Holder with drip tray, for 64.722

Dispenser for disinfectant

- Suitable for 500 ml Euronorm disposable bottles, as well as refill containers and hygiene packs
- Made of aluminum
- Incl. empty bottle
- Available with or without drip tray

Art. No.	OP1416000	Dispenser for disinfectant
	64.263800	Holder with drip tray
	64.697F	Holder for soap and disinfectant dispenser

Wall holder for disinfectant wipes

- Universal holder for disinfectant wipes
- Vertical mounting on trolley
- For packs of up to 80 wipes
- Material: Inox

Art. No.	64.783	Wall holder for disinfectant wipes

Wall holder for disinfectant wipes

- Universal holder for disinfectant wipes
- Horizontal mounting on trolley
- With removal aid
- For packs of up to 100 wipes
- Material: Inox

Art. No.	64.786	Wall holder for disinfectant wipes, horizontal

Holder for hand glove boxes

- Holder with spring, suitable for all common glove boxes
- Material: Inox
- Dimension: 255x135x110mm

Art. No.	64.714-Inox	Holder for hand glove boxes

Triple holder for glove boxes

- Made of inox
- Offers space for up to three glove boxes
- Inner dimensions: 257x360x88 mm

Art. No.	64.675.1	Triple holder for glove boxes

Risk waste container E-Safe

- Universal A-lid, yellow
- Capacity 0.5l or 2l

Art. No.	64.679-0.5	Risk waste container E-Safe 0.5l
	64.679-2.0	Risk waste container E-Safe 2l
Accessories	64.678	Holder for risk waste container 2l to the trolley handlebar

Holder for risk waste container

- For fastening the risk waste container to the trolley side wall
- Suitable for risk waste container E-Safe

Art. No.	64.679-0.5-WH	Holder for risk waste container 0.5l to the trolley side wall
	64.679-2.0-WH	Holder for risk waste container 2l to the trolley side wall

Holder for risk waste container

- For fastening the risk waste container to the trolley side wall
- Suitable for Sarstedt Multi safe twin plus 1.5l, 2.0l, 2.5l, 3.0l, 5.0l

Art. No.	64.804	Holder for risk waste container

Holder for risk waste container

- For fastening the risk waste container to the trolley side wall
- Suitable for E-Safe container 2l

Art. No.	64.743	Holder for E-Safe 0.5l and Sarstedt twin plus 0.5l
	64.742	Holder for E-Safe 2l

Holder for risk waste container to the handle

- For fastening the risk waste container to the trolley handlebar
- For risk waste container Sharpsafe 2l, 4l and Sarstedt euro Matic 3/4/6/7l

Art. No.	64.677	Holder for risk waste container 2l
	64.782	Holder for risk waste container 4l

Holder for risk waste container Sharpsafe to the trolley side wall

- For fastening the risk waste container to the trolley side wall
- For risk waste container Sharpsafe 2l, 4l and Sarstedt euro Matic 3/4/6/7l

Art. No.	64.776	Holder for risk waste container Sharpsafe 2l
	64.724	Holder for risk waste container Sharpsafe 4l and euro Matic 3/4/6/7l

Universal holder, Inox

- Multi-purpose, for example for dispenser for disinfectant
- Inner dimensions: 220 x 95 mm
- Height up to bracket: 82 mm
- Material: Inox

Art. No.	64.789	Universal holder, Inox

Universal holder small, with strap

- With strap for fastening container or dispenser
- Can be used individually
- Belt width 25mm

Art. No.	64.707R	Universal holder small, with strap, rounded
	64.707	Universal holder small, with strap, angular

Universal holder big, with strap

- With strap for fastening container
- Support plate made of high quality material
- Suitable for containers of different sizes and shapes

Art. No.	64.702U	Universal holder big, with strap

Dispenser for MediCups

- Dispenser for MediCups for attachment to wall or FlexLine trolley
- Without rod for mounting on trolley
- Material: Inox
- Height: 380 mm

| Art. No.	64.746.081	Dispenser for MediCups ECO
	64.746.077	Dispenser for MediCups Light
	64.746.071	Dispenser for MediCups Multi

Rilsan basket

- Transport basket made of Rilsan for hanging or mounting
- Dimension 41x14x10.5 cm

| Art. No.	64.693F	Rilsan basket, rear mounting
	64.693F-S	Rilsan basket, lateral mounting
Accessories	2.637	Insert dividable, 270x130x46 mm
	2.639	Divider to insert 2.637
	2.638	Insert dividable, 130x130x46 mm
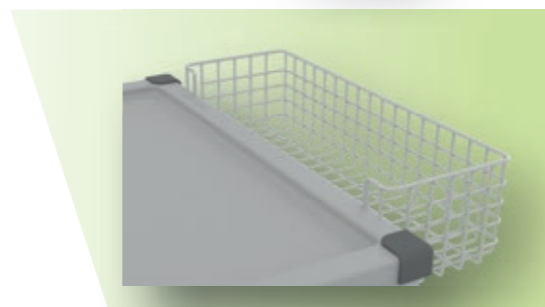

Label dispenser box

- Single dispenser for labels
- Attachment to wall rail with click system

Art. No.	202.200.001	Label dispenser box Click 110x110x23mm

	202.200.010	Wall bar for label dispenser box,6,5x45x650mm
	202.200.020	Console 650 mm, 30°, to wall bar
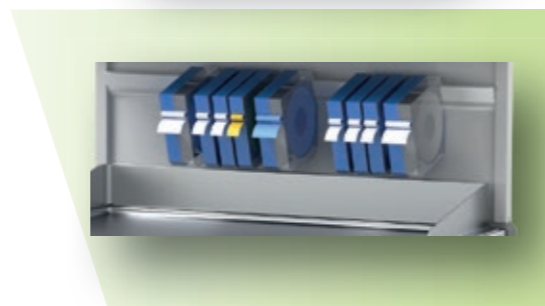

Container for catheters

- Catheter container is mounted on the exterior of the trolley
- Available in different dimensions
- Made of ABS

Art. No.	64.682-1	Container for catheters, 8x8x48cm
▬	64.682-2	Container for catheters, 8x15x48cm

IV pole, height adjustable

- With 3 fixed hooks
- Height 115 cm
- Also available in stainless steel

Art. No.	64.681PK3F	IV pole
	64.681PK3F-Inox	Inox IV pole

IV pole rotatable

- The hooks are rotatable and height adjustable
- Available with 3 or 5 hooks
- Height 115 cm

Art. No.	64.681PK-3x1	IV pole, rotatable 3 hooks
	64.681PK-5x1	IV pole, rotatable 5 hooks

Holder for A4 folder

- Holder is mounted on the side of the trolley
- Suitable for A4 files
- Dimensions: 35x7x20 cm
- Made of ABS plastic

Art. No.	64.706	Holder for A4 folder

Form container

- Forms container is attached to the trolley, documents can be carried in landscape format
- Available with different number of compartments
- Made of ABS plastic

Art. No.	64.728	Form container with 3 compartments
	00482_01	Form container with 4 compartments
	64.736	Form container with 6 compartments
	00154_01	Form container with 8 compartments

Variobox for A4 suspension files

- With grip profile on both sides and edge protection (on request)
- Space for approx. 15 to 20 suspension files
- Available in various colours
- Dimensions: 360x160x 272mm
- Material: polystyrene

Art. No.	10900.xxW	Variobox for A4 suspension files
	10900.99W	Edge protection

Waste bag holder

- Holder available in various sizes
- Made of high quality Rilsan
- Also available swivelling with spring catches

Art. No.	64.608	Waste bag holder, 3l, 24x13x24cm
	64.610	Waste bag holder 5l, 28x18x32cm
	64.609F	Waste bag holder swivelling 5l, 32x19x32cm

Accessories	64.608.1	Lid for waste bag holder 3l
	64.610.1	Lid for waste bag holder 5l

Inox waste bag holder

- Made of hygienic Inox
- Capacity up to 11l
- Dimensions: 24x17x33cm

Art. No.	64.752	Inox waste bag holder
	64.752S	Inox waste bag holder, swivelling

Wall-mounted waste bin MAXIWALLY

- Practical opening by knee
- Capacity 8l or 20l
- Removable inner bin
- Material ABS grey, inner bin PP

Art. No.	64.763-8	Wall-mounted waste bin MAXIWALLY 8l
	64.763-20	Wall-mounted waste bin MAXIWALLY 20l

Holder for O2 bottle

- Suitable for bottles with 3.8 or 5 litre capacity
- Holder consisting of base plate and two tensioning straps
- Tensioning straps individually adjustable

Art. No.	64.733	Holder for O2 bottle, 3.8l
	64.734	Holder for O2 bottle, 5l

Holder for bottle, small

- Suitable for bottles with a max. diameter of 78mm
- Height 124mm
- Made of inox

Art. No.	64.739	Holder for bottle, small

Lateral work surface, foldable tray

- For extending the work surface

Art. No.	TKS-25.1	Lateral tray, foldable, surface up to 0.25 m²
	TKS-50.1	Lateral tray, foldable, surface up to 0.5 m²

Tablet holder

- Swivelling, rotating, tilting and height-adjustable
- Stepless height adjustment
- For corner mounting on FlexLine trolley
- Suitable for tablets 10-14 inch

Art. No.	64.818	Tablet holder

Laptop holder

- Swivelling, rotating, tilting and height-adjustable shelf for laptops
- Suitable for laptops up to 17.3 inch
- Support surface for laptop: 385x275 mm

Art. No.	64.773-4	Laptop holder, corner mounting
	64.773-5	Laptop holder, side mounting

Monitor holder VESA

- Rotatability of the monitor 360°
- Monitor swivel -5° (bottom) ~ +25° (top)
- Height adjustment 130mm, for monitor up to 24 inch
- With cable management
- Dimensions: 100x100x75 mm
- Load capacity 6-12kg

Art. No.	64.777-G12	Monitor holder VESA straight
	64.777-S08-DF	Monitor holder VESA with swivel base

Keyboard holder

- Reinforced keyboard holder
- With extendable mouse tray

Art. No.	64.778-6	Keyboard holder with keyboard arm "MiniCobra"
	64.778-3	Keyboard holder for LIGHT Ward round trolley
	64.778-2	Keyboard holder for MAX Nursing trolley
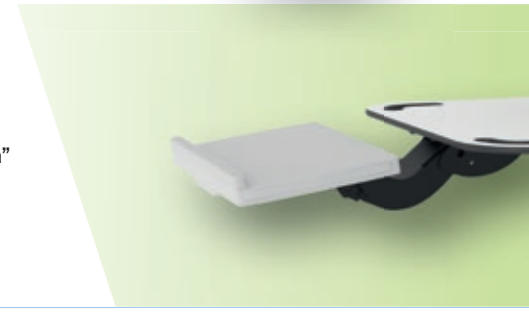

Laptop drawer

- Space-saving and secure laptop drawer
- Also available lockable
- Further variants available

Art. No.	3346.1-12F	Laptop drawer
	3440.1-12F	Laptop drawer
	4046.1-12F	Laptop drawer
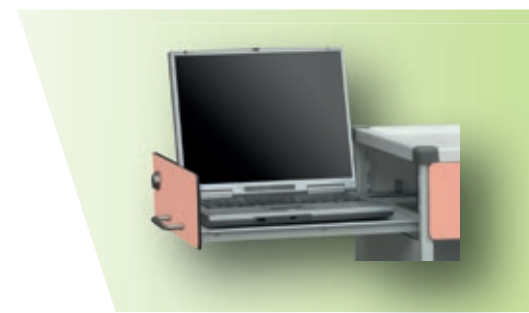

Lifting table rotatable

- Rotatable work surface
- Lockable every 90°

Art. No.	HT45D.400.520.350	Lifting table rotatable
	64.794	Extendable mouse tray on both sides

STALA and PicBox storage system

- Containers available in various sizes
- Containers can be freely combined
- For dust-proof storage of material

Art. No.	60STALA-xx	STALA System for trolley 60.x
	45STALA-xx	STALA System for trolley 45.x

Container	STALA3 / STALA4 / STALA5 / STALA6 / PicBox3 / PicBox5

Holder for catheter

- With pull-out rail
- Available with hooks on both sides or one side
- Various versions available

Art. No.	02437-01	Holder for catheter with 2x5 hooks
	02437-02	Holder for catheter with 1x5 hooks
	01238-01	Holder for catheter with 2x6 hooks
	01238-02	Holder for catheter with 1x6 hooks

Equipment rail, universal

- Practical aluminum equipment rail
- For attaching various tools
- Can be used individually
- Available in various length

Connector for equipotential bonding

- There must be one potential-free contact per attached unit
- Mounting is at the rear or top of the frame

Art. No.	64.712	Connector for equipotential bonding, 1 pc.

Connection plug board

- Suitable for CH plug
- 5 slots
- Cable length: 2 m
- Sale only in CH, other countries on request
- Holder to install a connection plug

Art. No.	900.050.001	Connection plug board

Board for cardiac massage

- Cardiac massage board made of robust VKH
- Dimensions 80x50cm
- Attachment to the trolley

Art. No.	64.683	Board for cardiac massage

Wiegand FlexLine Trolley System

Furnishing solutions for drawers

You can equip the drawers of the FlexLine trolleys with various sets of small containers, TRESTON containers or dividers as required. Individual solutions are also possible – our team will help you with the configuration of drawers.

Containers

You will find various small containers in our range for the individual division of the drawers. These are available individually or in various sets.

TRESTON Containers

The storage containers are ideal for storing medicines, ointments, drops, etc. for each resident. Thanks to the ribbed bottom, picking up even the smallest objects is made easier. The TRESTON containers can be flexibly divided and are stackable.
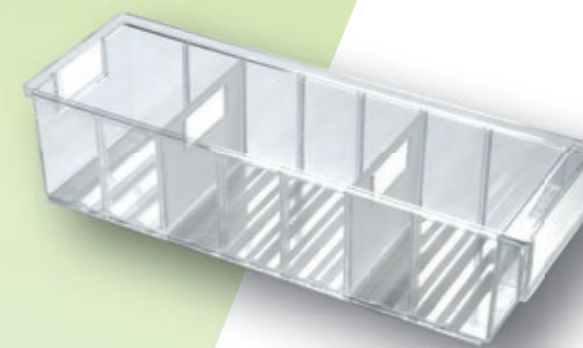

Sliding dividers

Sliding dividers serve as flexible partitioning aids for sets of drawers or the FlexModul. At the predetermined breaking point, the sliding divider can be shortened to any centimetre of the sheet width. It is infinitely adjustable and thus offers endless possibilities for the individual subdivision of your drawers.
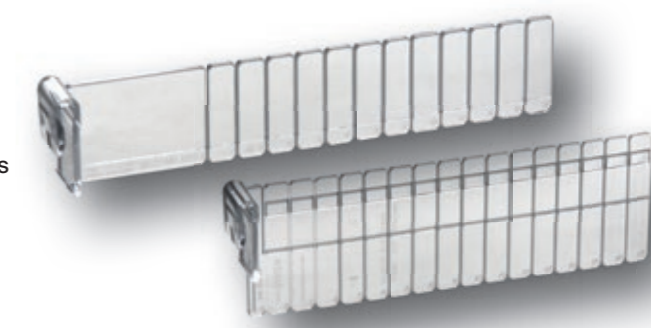

Organisation solutions for 45mm drawers

The internal dimensions of the drawer are 413 x 402 mm (width x depth).

Container set S1

Set consisting of:

	Art. 2269	5 Containers A (80x80x45mm)
	Art. 2271	4 Containers C (80x160x45mm)
	Art. 2274	4 Containers F (120x160x45mm)
Art. No.	45.5-S1	Container set S1

Container set S2

Set consisting of:

	Art. 2269	4 Containers A (80x80x45mm)
	Art. 2271	3 Containers C (80x160x45mm)
	Art. 2272	5 Containers D (80x240x45mm)
Art. No.	45.5-S2	Container set S2

Container set S3

Set consisting of:

	Art. 2269	2 Containers A (80x80x45mm)
	Art. 2271	1 Container C (80x160x45mm)
	Art. 2272	5 Containers D (80x240x45mm)
	Art. 2274	2 Containers F (120x160x45mm)
Art. No.	45.5-S3	Container set S3

Container set S4

Set consisting of:

	Art. 2269	2 Containers A (80x80x45mm)
	Art. 2270	2 Containers B (80x120x45mm)
	Art. 2271	1 Container C (80x160x45mm)
	Art. 2272	5 Containers D (80x240x45mm)
	Art. 2274	1 Container F (120x160x45mm)
Art. No.	45.5-S4	Container set S4

Container set S5

Set consisting of:

	Art. 2269	5 Containers A (80x80x45mm)
	Art. 2270	5 Containers B (80x120x45mm)
	Art. 2271	5 Containers C (80x160x45mm)
Art. No.	45.5-S5	Container set S5

Container set S6

Set consisting of:

	Art. 2.637	4 Containers (270x130x45mm)
	Art. 2.638	1 Container (140x130x45mm)
	Art. 2.639	8 Dividers
Art. No.	45.5-S6	Container set S6

Container set S7

Set consisting of:

	Art. 2.637	3 Containers (270x130x45mm)
	Art. 2.638	3 Containers (140x130x45mm)
	Art. 2.639	6 Dividers
Art. No.	45.5-S7	Container set S7

Subdivision set S13F

Set consisting of:

	Art. 220.10.x-1.389	2 End pieces with clip
	Art. 220.10.x-1.400	2 End pieces with clip
	Art. 220.10.x-2.383	2 Connecting pieces with 2 clips
Art. No.	45.5-S13F	Height incl. clip 60 mm
	45.6-S13F	Height incl. clip 105 mm
	45.7-S13F	Height incl. clip 155 mm

Subdivision set S16F

Set consisting of:

	Art. 220.10.x-1.389	2 End pieces with clip
	Art. 220.10.x-1.400	2 End pieces with clip
	Art. 220.10.x-2.394	2 Connecting pieces with 2 clips
Art. No.	45.5-S16F	Height incl. clip 60 mm
	45.6-S16F	Height incl. clip 105 mm
	45.7-S16F	Height incl. clip 155 mm

Subdivision set S19F

Set consisting of:

	Art. 220.10.x-1.389	2 End pieces with clip
	Art. 220.10.x-1.400	2 End pieces with clip
	Art. 220.10.x-2.383	1 Connecting pieces with 2 clips
	Art. STx	2 Sliding dividers 190 mm with clip

Anti-slip mats for drawers

• Prevents containers from slipping away
• Available in different sizes

Art. No.	34S.AS	Anti-slip mat 300x390 mm
	45S.AS	Anti-slip mat 410x390 mm
	60S.AS	Anti-slip mat 560x390 mm
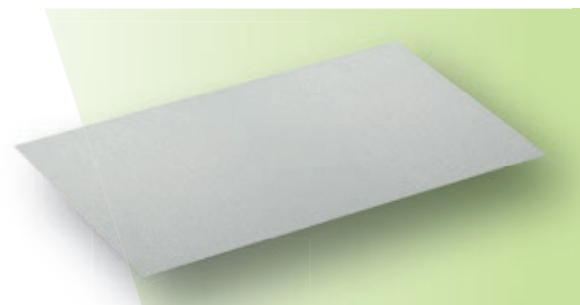

FlexModul trays in FlexLine trolleys

Ideal use of space for storage

The extensive range of FlexModul trays enables a wide variety of materials to be stored in a space-saving manner. The trays offer countless application possibilities and can be used individually in the trolley. The trays can be individually divided with the help of sliding dividers so that your material fits neatly in the tray and does not slip. The FlexLine trolley can be equipped for the use of FlexModul trays with shelving profile, pull-out frames or drawers.
